

# **Maryland Wedding Photographer**

Love and Adventure Photography is a Wedding & Elopement Photography Company based just outside of Washington DC. We specialize in documentary wedding photography coverage with a splash of artistic portraiture.

My couples want something different. They don't want their wedding photos to look like every other wedding. We want our couples not only to see beautiful photographs but to feel them. Feel the moments. Feel the love. [Africa Honeymoon](#)

Our photography feels real...it has movement, emotion, real laughter, and bold real colors.

Included in most of our packages is the option for an Adventure Engagement session. An opportunity for couples to meet me anywhere in the world for their engagement session. In 2020, we will be in Zambia, Iceland, Scotland, Italy, Ireland, and all over the US.

We also travel worldwide for intimate elopements and weddings. Providing our couples with a full day lifestyle session. We have photographed weddings international Antarctica, Greece, Newfoundland, Mexico, all over the US, and many of the islands.
